

as National Poison Prevention Week. I call upon all Americans to observe this week by participating in appropriate programs and activities and by learning how to protect our children from poisonous substances.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of March, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fourth.

WILLIAM J. CLINTON

**Proclamation 7282 of March 24, 2000**

**Education and Sharing Day, U.S.A., 2000**

*By the President of the United States of America*

*A Proclamation*

As we welcome a new millennium, America stands at a unique moment in time. We can look back over the past century, where we experienced profound advances in science, medicine, and technology that fundamentally altered the world in which we live. At the same time, we can look ahead to a new century filled with unparalleled promise and unlimited possibilities for further progress.

Throughout our Nation's history, education has been at the heart of achievement in America, and it is the key to meeting the challenges and seizing the opportunities that lie before us. To succeed in the global community of the 21st century, we must provide all our citizens with a world-class, well-rounded education. We must ensure that every American has not only the knowledge and the skills he or she needs to flourish, but also a solid foundation of moral guidance and values. As the technology revolution breaks down barriers of geography, culture, and economic status, it is more crucial than ever that young people learn the importance of tolerance, cooperation, and sharing. Imbued with these values and enriched by a quality education, our children can look forward to a bright future.

Rabbi Menachem Mendel Schneerson, the Lubavitcher Rebbe, recognized early the importance of such comprehensive learning. In addition to being one of the world's highly respected religious leaders, he was also an accomplished scholar in mathematics and science. Understanding that both secular education and spiritual training contribute enormously to human development, he sought to provide young people with fresh opportunities for academic, social, and moral enrichment through the more than 2,000 educational and social institutions he established throughout our country and around the world. His efforts continue to bear fruit today, helping a new generation to develop into responsible and mature adults.

As we observe this special day, let us renew our commitment to excellence in education and to nurturing our young people's academic and spiritual development. Let us also remember the example of Rabbi Schneerson and pass on to our children the values and knowledge that have strengthened our Nation in the past and that will empower us to face the challenges of the future.

**Proc. 7283**

**Title 3—The President**

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim March 28, 2000, as Education and Sharing Day, U.S.A. I invite Government officials, educators, volunteers, and all the citizens of the United States to observe this day with appropriate activities, programs, and ceremonies.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fourth day of March, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fourth.

WILLIAM J. CLINTON

**Proclamation 7283 of March 24, 2000**

**Greek Independence Day: A National Day of Celebration of Greek and American Democracy, 2000**

*By the President of the United States of America  
A Proclamation*

Two thousand five hundred years ago, the birth of democracy in Greece ushered in one of the true golden ages of Western civilization. The flowering of political, social, and artistic innovation in Greece served as the source of many of our most treasured gifts—the philosophy of Plato and Socrates, the plays of Sophocles and Aristophanes, the heroic individualism that rings in the epic poetry of Homer.

But Ancient Greece's greatest legacy is the establishment of democratic government. America's founders were deeply influenced by the passion for truth and justice that guided Greek political theory. In ratifying our Constitution, they forever enshrined these principles in American law and created a system of government based on the Hellenic belief that the authority to govern derives directly from the people.

While our democracy has its roots in Greek thought, the friendship between our two nations flows from our shared values, common goals, and mutual respect. This kinship with the Greek people was reflected in the enthusiasm with which America embraced modern Greece's fight for independence 179 years ago. Many Americans fought alongside the Greeks, while stirring speeches by President James Monroe and Daniel Webster led the Congress to send funds and supplies to aid the Greeks in their struggle for freedom.

Our alliance with Greece has remained strong. Together we have stood up to the forces of oppression in conflicts from World War II to the Persian Gulf, we have joined as strategic partners in NATO, and we have worked to build peace, stability, and prosperity in the Balkans. Through decades of challenge and change, our friendship has endured and deepened, and together we have proved the fundamental truth of the Greek proverb, "The passion for freedom never dies."

That passion for freedom has also beckoned generations of Greek men and women to America's shores, and today we celebrate and give thanks for the myriad contributions Greek Americans have made to our national life.
